      ***e.g.* interface with AstroGrid workflows, collaboration with INAF**

CDS proposals for DS3 Cycle 3 (2)

■ VizieR ADQL-Skynode

■ Prepare propositions for the next step (all VizieR as SkyNode)

- Identify all the evolutions needed in the different IVOA VOQL documents

- Develop a prototype to improve viability

- Continue collaboration with ESAC on this topic

  Reminder : existing VizieR SkyNodes were implemented with the "ESAC SkyNode toolkit" (with flexibility to integrate the Source DM)

- **...**

Cross-DS

- **DS3-DS6 :** *PLASTIC*
  - Consolidate developments in Aladin
  - Support of new messages
  - ...
