

EURO-VO DCA Workshop on data publication

DSA Session

reported by

Hans-Martin Adorf, MPA, Garching

DSA Session

- Congratulations
 - entered as a VO-skeptic, but am seeing light at the end of the tunnel
 - VO Explorer: marvelous tool
 - set-up instructions for 2 RDBMS's + Tomcat on 3 different platforms
 - DSA data ingestion: worked
 - DSA web application: worked
 - publication to the registry: worked (when circumventing the firewall problem)
-
-

DSA Session

- Suggestions
 - advance team to test the installation (firewall problem)
 - look at Hibernate persistency tool how to easily connect to a variety of underlying RDBMS's)
 - try out the Apache Derby pure Java RDBMS
 - high-level comparison of the VO publications different tools
 - diagrams explaining the underlying process (data ingestion into DB, web app for query-response, registry, query tools)
-
-
